

I joined Ironhack with a purpose, to change my professional life, to start doing something that rewards not just money, but satisfaction and pleasure.

I know that I will have difficulties and that I will be pressured to the maximum, the language will certainly be the first challenge, mainly due to the lack of practice in recent years.

During this journey until the end of the course, I commit to giving 100% of myself. And reach my goal, to be a Web Developer.
